CITY OF BUDA NEARING COMPLETION OF NEW WATER METER SYSTEM INSTALLATION WATERSMART CUSTOMER PORTAL NOW OPEN

The City of Buda is nearing completion on the installation of the City's new water meter system. The new system enables customers to see consumption data in real-time as opposed to having to request their consumption data from the City. The system also enables customers to set usage alerts and receive leak notifications.

The City of Buda recently partnered with WaterSmart Software to offer our residents a modern digital portal where you can access detailed information about your household water use. You can reach the portal on your mobile device or web browser at <https://budatx.watersmart.com/index.php/welcome>.

To register for this free service, just enter your billing account number and email address. You can then access all of your utility data on a daily basis, see how your water use compares to similar sized homes in your neighborhood, and get access to customized recommendations on how you can save water and money.

We hope you take advantage of this exciting new service, and look forward to working closely with our residents to make our city more resilient, healthy, and happy!
