CITY OF BUDA HIRES FIRST PROJECT MANAGER

BUDA, TX — Nov. 23, 2016 — The City of Buda has hired its first Project Manager. The Project Manager will plan, direct and coordinate the implementation of studies, designs, and contracts for repair, and construction of various capital improvement projects. This position was approved in the Fiscal Year 2016-17 Budget.

Ray Creswell comes to us from a career in private practice as an architect, interior designer and construction manager. Mr. Creswell is an experienced architect with over twenty years of consecutive development and design management experience in hospitality, healthcare and commercial projects. In that time he had his own practice as an architect, worked for the Federal Government and corporate companies, including Hilton World Wide as the Director of Architecture and Construction.

Mr. Creswell's background covers both public and private facilities from local municipalities to private development. He is also experienced in working with Bond Proposition projects and serving as a liaison between architects, engineers and contractors to properly complete projects. As Project Manager, Mr. Creswell will help oversee Buda's five Bond Proposition projects.

Mr. Creswell says he is honored to work for the City of Buda, and able to be a part of the City's growth, since this is where he and his wife live and call home. They enjoy being a part of the Buda community.

"As the City's new project manager, I look forward to working with the city on the new capital improvements, and the approved proposition projects. My goal is to work diligently to see the projects are completed on time and stay within the approved budgets. The new Municipal complex for City Hall, the public library and the police department, road improvements and park improvements will be an asset to the citizens, the community and the City as a whole, due to the growth this area is currently experiencing," said Creswell.

Mr. Creswell graduated with a Bachelor of Science Engineering Technology in Architecture from the University of Memphis. He also holds multiple Architectural and Interior Design licenses through the National Council of Architectural Registration Boards (NCARB).
